

Maryland can't afford \$11+ billion worth of broken Luxury Lane promises!

Enact HB1249 and HB1424 now!

HB1249 will ensure powerful companies deliver on Governor Hogan's promises for his \$11 billion plan to widen I-495/I-270 for high-cost, for-profit tollways, including:

- Traffic relief at no net-cost to taxpayers!
- Union-scale construction wages!
- Full fiscal and environmental impact transparency!
- Money for mass transit!

HB1424 will protect Maryland from bad deals, set financial and data sharing requirements before there's a decision about big public-private partnerships.

Call the General Assembly!
